

Technical Sales Representatives

BioBee USA is a subsidiary of BioBee Sde Eliyahu Ltd, one of the global leaders in Biocontrol. BioBee produces beneficial mites, insects, and nematodes for IPM programs for both conventional and organic farming. BioBee is known for its high-quality product portfolio and its professional technical team.

BioBee is looking for sales representatives in the Rockies region.

Scope:

The Technical Sales Representative is responsible for developing and managing the sales of BioBee products to the specialty crops markets such as ornamental, cannabis, hemp, strawberry, vegetable, soft fruits, and fruit trees.

This will be accomplished by:

- Implementing sales strategies to achieve sales objectives in the assigned territory.
- Supporting the customer's needs by calling on distributors and growers in the territory.
- Promoting BioBee products as the first line of defense in crop protection pest control programs in conventional and organic farming
- Developing Integrated Pest Management (IPM) programs for specialty crops in greenhouses and in open fields, with the support of the BioBee technical team,
- Participating in trade shows, exhibitions, growers' meetings, and seminars
- Initiating and managing academic and extension service studies in-order to learn and promote the BioBee product portfolio.
- Creating and managing experts and opinion leaders' network to support BioBee brand awareness.
- Identifying sales opportunities and new products ideas
- Providing timely competitive market intelligence

Required Skills / Experience:

- BA/BS degree in horticulture, agriculture, or similar experience. A degree in entomology is a plus. MS is a plus.
- Preferred 3 + years' experience in agriculture or horticulture sales
- Have knowledge and familiarity with biocontrol distribution channels in the region.
- Experience with creating IPM programs and crops scouting.
- Have a strong interest in biological crop protection.
- Ability to recognize pests and diseases, with knowledge of available control products.
- Knowledge of grower cultural practices
- Ability to work independently.
- Willing to travel on business up to 60% including international travel.
- Identify, prioritize, set, and achieve goals with efficiency.
- Strong communication skills. Communicate effectively, both verbally and written in English.
- Negotiate, mediate and resolve conflicts.
- Prepare documents and presentations using Microsoft® Office®.

Desired Skills/ Experience:

- CCA/PCA certification (is a must if position in CA)

We offer

- A challenging job with a high degree of independence and creativity in a dynamic, innovative, growing and global company.
- A competitive salary with benefits.

- A challenging job in the biocontrol developing industry.
- Interaction with BioBee global technical and sales team

Compensation: Salaried position (overtime exempt)

The candidate must have the required permits to work in the US.

Please apply with a cover letter and resume to hr@biobee.us
